$\frac{\textbf{REQUEST TO WITHDRAW NOTIFICATION OF DEFECTIVE}}{\textbf{RESPONSE}}$

Mail Stop PCT Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

Sir:

Applicants have received a Notification of Defective Response dated August 22, 2007 from the United States Patent and Trademark Office ("USPTO") in connection with the above-identified application. The Notification of Defective Response asserts that Applicants have not submitted a copy of the Sequence Listing in computer readable form (CRF") as required by 37 C.F.R. § 1.821, and that Applicants have failed to comply with the requirements of 37 C.F.R. §§1.821-1.825. Applicants respectfully submit that such assertions in the Notification of Defective Response are erroneous.

On March 12, 2007, Applicants filed a Response to Notification of Missing Requirements and Preliminary Amendment ("Response") in connection with the above-identified application, which included a copy 1 and copy 2 of a Sequence Listing on compact disks and a copy of the Sequence Listing in CRF, accompanied by a Transmittal of Sequence Listing containing the statements required by 37 C.F.R. §§ 1.821-1.825. An amendment specifically directing the entry of the Sequence Listing into the specification was made in the Response. During a phone conversation on September 13, 2007 with Stephanie Wang, a representative of Applicants, Examiner Anita D. Johnson acknowledged that the Response and the Transmittal of Sequence Listing had been received by and were shown in the records at the USPTO; however, Examiner Johnson stated that copies of the Sequence Listing were missing from the records of the USPTO. Examiner Johnson further acknowledged that an

amendment specifically directing the entry of the Sequence Listing into the specification was found in the Response filed on March 12, 2007. In the same phone conversation, Examiner Johnson also acknowledged that the USPTO had received the following items, which were not among the items listed as received by the USPTO on the Notification of Defective Response:

- (i) executed Power of Attorney by Assignee, with attached copy of assignment;
- (ii) Information Disclosure Statement;
- (iii) List of References Cited; and
- (iv) copies of References B01-B02 and C01-C59.

The above-identified documents were filed by Applicants on March 12, 2007 accompanying the Response.

As evidence of the filing of the Sequence Listing (copy 1 and copy 2) on compact disks and in CRF, the Transmittal of Sequence Listing, and Response, all on March 12, 2007, Applicants enclose herewith: 1) a copy of the return postcard as filed on March 12, 2007, listing the foregoing documents and the Express Mail Label No. EV 686 164 566 US; 2) a copy of the same return postcard stamped by the USPTO with a filing date of March 12, 2007; 3) a copy of the Express Mail Label for EV 686 164 566 US, showing a "Date Accepted" of March 12, 2007 and stamped by the Post Office with a date of March 12, 2007; 4) a copy of the Response as filed on March 12, 2007, bearing the Express Mail Label No. EV 686 164 566 US; and 5) a copy of the Transmittal of Sequence Listing as filed on March 12, 2007, bearing the same Express Mail Label No. Also enclosed herewith are copy 1 and copy 2 of the Sequence Listing on compact disks and in Computer Readable Form, identical to those previously submitted on March 12, 2007.

The above evidence shows that the documents filed by Applicants on March 12, 2007 fully satisfied the requirements of 37 C.F.R. §§1.821-1.825, and that the issuance of the Notification of Defective Response was in error. Accordingly, Applicants respectfully request that the Notification of Defective Response be withdrawn by the USPTO. Applicants further submit that the filing of the instant Request to Withdraw Notification of Defective Response should *not* result in any reduction of patent term under 37 C.F.R. § 1.704, since it was USPTO error, and not a failure by Applicants to engage in reasonable efforts to conclude prosecution of the application, that necessited the filing of the present communication. In

NYI-4023892v2 2

particular, the above remarks and evidence show that the Response to filed on March 12, 2007 did *not* have any omission, and thus does not qualify under 37 C.F.R. § 1.704(c)7.

Applicants further request that the USPTO acknowledge receipt of the documents listed in items (i)-(iv) above.

Respectfully submitted,

Date: September 21, 2007

- Drawings filed on 04/27/2006

Applicant's response filed 03/12/2007 is hereby acknowledged. The following requirements set forth in the NOTIFICATION of MISSING REQUIREMENTS mailed 01/11/2007 have not been completed.

• This application clearly fails to comply with the requirements of 37 CFR. 1.821-1.825. Applicant's attention is directed to the final rulemaking notice published at 55 FR 18230 (May 1, 1990), and 1114 OG 29 (May 15, 1990). If the effective filing date is on or after July 1, 1998, see the final rulemaking notice published at 63 FR 29620 (June 1, 1998) and 1211 OG 82 (June 23, 1998). If the effective filing date is on or after September 8, 2000, see the final rulemaking notice published in the Federal Register at 65 FR 54604 (September 8, 2000) and 1238 OG 145 (September 19, 2000). Applicant must provide an initial computer readable form (CRF) copy of the "Sequence Listing", an initial paper or compact disc copy of the "Sequence Listing", as well as an amendment specifically directing its entry into the application. Applicant must also provide a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825 (d). If applicant desires the sequence listing in the instant application to be identical with that of another application on file in the U.S. Patent and Trademark Office, such request in accordance with 37 CFR 1.821

(e) may be submitted in lieu of a new CRF.

• A copy of the "Sequence Listing" in computer readable form has not been submitted as required by 37 CFR 1.821(e). If the effective filing date is on or after September 8, 2000, see the final rulemaking notice published in the Federal Register at 65 FR 54604 (September 8, 2000) and 1238 OG 145 (September 19, 2000). Applicant must provide an initial computer readable form (CRF) copy of the "Sequence Listing" and a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d). If applicant desires the sequence listing in the instant application to be identical with that of another application on file in the U.S. Patent and Trademark Office, such request in accordance with 37 CFR 1.821(e) may be submitted in lieu of a new CRF.

Applicant is required to complete the response within a time limit of ONE MONTH from the date of this Notification or within the time remaining in the response set forth in the Notification of Missing Requirements, whichever is the longer. No extension of this time limit may be granted under 37 CFR 1.136, but the period for response set in the Notification of Missing Requirements may be extended under 37 CFR 1.136(a).

Applicant is cautioned that correction of the above items may cause the specification and drawings page count to exceed 100 pages. If the specification and drawings exceed 100 pages, applicant will need to submit the required application size fee.

For questions regarding compliance to 37 CFR 1.821-1.825 requirements, please contact:

- For Rules Interpretation, call (571) 272-0951
